PIECES OF WISDOM

Health requires you to take great care of your invisible world. What is health?

Health in man - this is wholeness: mind, heart, will, body, soul, spirit - all in one direction, absolute unity - Wholeness.

Eleazar Harash

Health is life in God, and sickness is life in yourself. The purpose of disease is to cure people. The main thing that needs to be healed in man is the way of life, the way of thinking. There are no diseases, there are weaknesses. Diseases are cures in themselves, but the point is to realize what is required of you. The essential thing is not to heal the person, but to show him the spiritual path.

Eleazar Harash

What is health?

When everything is taken away from you - health, friends, houses, goods, what do you have left? If you have love left, it is health.

Peter Dunov (Beinsa Douno)
